

Companies/industries that I would like to work for

I would like work for the companies that match the skills that I have learnt through this course and feel confident about. The skills that I have gained from this three year course are, writing articles, video and audio editing, making audio packages for radio as well as making video pieces for live shows. I would like to work in a radio station because it's one of the areas that I feel more interest in. I am also interested in documentary making and video production.

Internships and placements

- I have not done any internships yet but I am looking forward to do internship from now as much as I possible.
- I have done some placements and work experience with some organisations.
- I am working for my local radio station as voluntary for two hours every Saturday.
- On the first hour, we prepare for the show and the content that the show need to cover on that specific day. On the second hour we have the live show.
- During the show in take part in different such as presenting, doing the engineering work giving out the show templete to the presenters or adjusting the bits needs to go in order of the show.

My CV

- **My cv has all my skills, work experiences and placements that I have done so far.**
- **In my skills section, I have the journalistic skills that I learnt from this course as well as my other personal skills.**
- **In my experience section, I have all the agencies that I work for as a interpreter and translator.**
- **I also have the list all my educations so far.**

My plan of action after graduation

I would like to do more internships on the areas that I would like to work in future.

I want to do more placements to gain more experience.

I am also looking to some freelancing jobs.

After next, I would then want to secure a paid job.

How does my website fits the market place that I want to work for

My website has the skills and works that I have done or produced so far to match the job sectors that I want to work for after being graduated.

- My website has some of the audio pieces that I have produced over the first and second year.
- My website also has some of the video pieces that I have done as as group during the course.
- My website has some of the works that I have done as part of my work experience at my placements.
- My website has all the relevant journalistic work that I have done so far.
- my website looks appealing for the job sectors that I want to work for because it has
