

My Wordpress Site

Adam Ginley

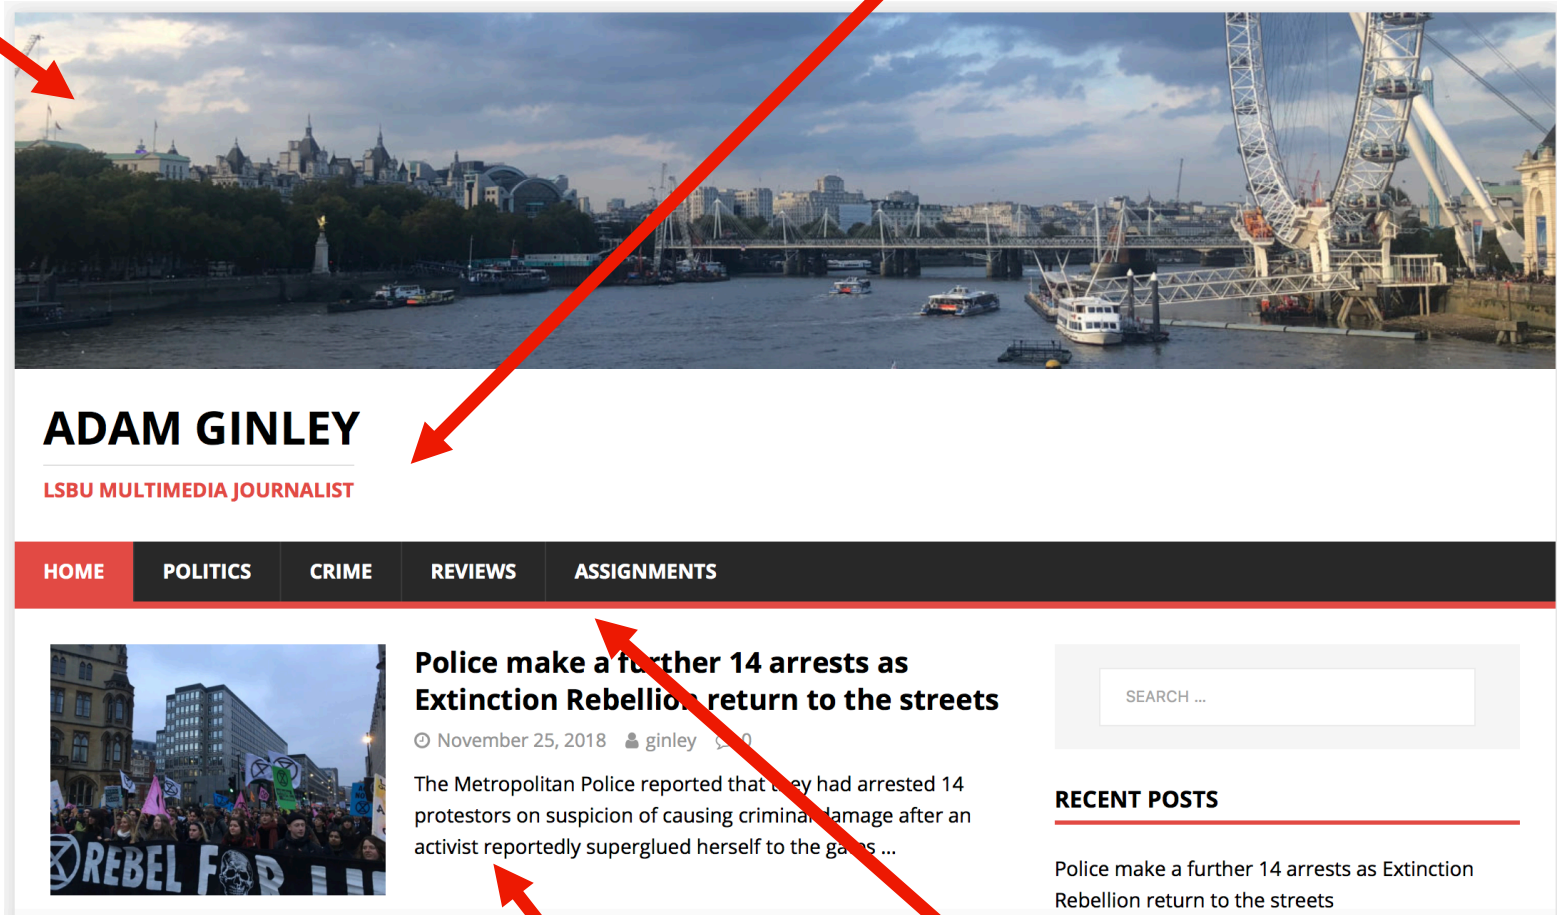

How I use my website

- I primarily use my website to post assignments and tasks set in class.
- These include: Patch news stories, theory analysis set in DJ1, and reviews of events.
- I intend to use my website as a portfolio of my work.

Analytics

Website quality

±0%

Broken pages or the use of unsecure technologies impact the quality of your website and may annoy your visitors.

- Analytics help assess how well my website is performing
- I can see how functional the features are
- SEO- I can tell where I need to optimize stories and images further.

SEO

±0%

Indexability issues, broken canonicals or internal nofollow links result in lower rankings in search engines.
