

My internships/placements so far - what roles I've taken on, what I've learnt, how these internships have helped prepare me for the future

- Helped market and promote my current job at Slug and Lettuce through their social media channels throughout last Summer and this Christmas
- Upcoming intern with Chapman black marketing their company through social media
- Created a Instagram post to promote their company
- Created a 15 second video to promote myself in a creative way
- Preparing myself for the future as I have built up contacts in the marketing industry and got to grips with how social media works and how to engage wider audiences
