

Bhoomi Amin's Wordpress site

The screenshot shows the top of a Wordpress website with a dark theme. The header features a navigation bar with links for 'My Sites', 'Headliner', 'Customise', '+ New', and 'Performance'. On the right, it says 'Hi, amin' with a user profile icon and a search icon. Below the header is a large banner image of a city at night with string lights and the Big Ben clock tower. The main content area has a dark navigation menu with links for 'Home', 'News', 'Music', 'Coursework', 'Profiles', 'South London Press', 'About', and 'Contact'. There is a search icon on the right of the menu. Below the menu are three article cards. The first card is titled 'Extinction Rebellions protesting in central London.' with a 'Coursework' tag and a 'News' tag. The second card is titled 'Christ Church Shooter hills school manager has been nominated for two prestigious awards.' with a 'News' tag and a 'South London Press' tag. The third card is titled 'Ex- England footballer's charity donates 17- seater minibus to Wandsworth school children with autism.' with a 'News' tag and a 'South London Press' tag. LAST TWEETS

RT @Channel4News: This Thursday

The wordpress, I chose is Cream magazine. In the beginning, my theme was MH magazine lit however I changed it to creme magazine because it looked attractive and more sticky to catch people's eyes.

I categorise my menus in the order of my interest and where I can frequently add something.

I like how my produced news is presented in a slideshow so when the viewer visits my website, the first thing that will catch their eye is the slideshow.

Widgets in my sidebar.

I added the 'recent post' widget so the viewer can see all the latest post that I published.

My Target Audience:

My target audience will mainly be the local community of London. I intend to find more news around central and south London. I want to target young people around the age of 16 to 19 and elderly 60+ as I believe I will be able to inform them better than.

What went well

I think that I have improved a lot in terms understanding wordpress and now I feel like I know the basics well and I like to more play around and find out more of the plugins. I successfully added Twitter to my wordpress site and I explored around the theme to find which will suit well with my concept.

What to improve on

I believe that I still have a lot to improve on and more to learn. I want to publish all my news that is saved in my draft. I want to make site more sticky in terms of its house style. I want to make my site more interesting and maybe I will change the name of my website too. I haven't added any tags so I would like add some as well.
